work&log.com

at a glance

tracking made easy

- log working hours anytime, anyplace
- track on the go with the offline app (iOS, Android)
- let your browser do the job (stopwatch plugin)

be in the know

- get reality checks at the click of a button
- measure KPIs against monthly and daily targets
- track down time eaters to step up performance

stay in control

- keep tabs of who is doing what
- set backdating restrictions for tamper-proof entries
- never miss a reporting deadline (reminders and scheduled reporting)

make it count

- filter, sort and break up data as needed
- draw on historical data for rock-solid estimates
- stay on top of overtime and eliminate cost overruns

make it yours

- add a personal touch (customizable logo and color-scheme)
- manage days off, bank holidays, paid/sick leaves, etc.
- let your partners and clients see how you are doing
